

Arena Starfish™ Lift I

Easy in. Easy out.

Top discharge simplified.

- Ergonomic design allows for safe and easy positioning of top-discharge pumps and mixers.
- Compatible with all components of Arena Starfish™ Air-Evac® System.
- Makes connecting the Arena 330 Shipper™ to your process a single person operation.
- Remote control allows single person operator to raise and lower pump or mixer with ease and precision.
- Powered by a 24 volt DC rechargeable battery which eliminates the need for hazardous electrical cords, power outlets or compressed air to operate the lift.
- Reduces accident hazards and related costs.
- Improves operator performance and efficiencies.

Arena Starfish™ Lift I

Easy does it.

Photo shows pump used in conjunction with a spanner bar and the Arena 330 Shipper. The pump can also be attached directly to the bag using an Arena Liner Lock.

| | |
