

Wrap Around Heaters

Insulated heating jackets can help customers maintain viscosity, flow ability, and provide freeze protection for applications vulnerable to harsh or cold conditions.

BriskHeat and UniTherm offer wrap around insulated electric heaters that are compatible with our A330.

**BriskHeat Part Number TOTE421-ADJ
Shown with optional TOTE-TOP**

Specifications:

- Power: 120 VAC Wattage:1440
- Amperage: 12
- Adjustable Thermostat Temperature Range: 50-160F
- Built in high temp limit shut off at 195F
- Dual Heating Zones: Top and Bottom
- Height: 42 Inches
- Perimeter:186 Inches
- Attachment Method: Adjustable Nylon Straps with Buckles
- Material: Silicone Impregnated Cloth Facing and Liner
- Insulation: 1/4 Inch Fiberglass
- Ground Protection: Patented Design For Safety
- Power Cord Length: 6 Feet
