

Arena 330 Shipper - Tamper Evident Closures

Over the past several years, Arena Products has seen a growing interest in tamper evident closures. The most common type of closure available is a tamper evident cap and there are currently two types to choose from.

**“Tri-Sure”
G2 Plastic Tab-Seal Cap
Tool required for installation**

**“Tri-Sure”
Plastiplug with Push-Lock Cap
No tool required for installation**

In addition to Tamper Evident Caps or as an alternative, many customers simply band the shipper as shown below. See Technical Bulletin TB201 for details.

Information regarding Tri-Sure is available at: 1-630-665-7900 or visit their website at: <http://www.tri-sure.com>.
