TB218A

In addition to tamper evident tape for use on the Arena liner fitments, Arena Products has developed a tamper evident solution to the A330 Shipper itself.

Tools needed:

Flat Blade Screwdriver

Materials needed:

Tamper-evident plastic tie-strap 3/16" wide x 15" long (numbered for recording and tracking if desired)

Suggested – American Casting Co., Part Number – BT4S-15.1

Installation procedure:

1. Use a flat blade screw driver and open the 4 detents on the lid.

2. Install the tie-straps on all four corners of the shipper by threading the tie-strap through the small detent on each corner of the lid and then through the support tab. DO NOT over-tighten the straps.
